Exhibitions held at Expocentre are accompanied by various business related and associated events intended for both exhibitors and professional visitors.
Conventions, conferences and workshops are working during all exhibition days.
These events are the best place for businessmen, manufacturers, government representatives, scientists and designers to meet to exchange opinions and knowledge.
A convenient location in the centre of Moscow near the House of the Russian Government, the Moscow International Business Centre district and the World Trade Center, right next to the Vystavochnaya and Delovoy Tsentr metro stations and several large hotels guarantee our clients comfortable working environment and easy access to the venue.

HEAT TREATMENT

13th International Specialized Exhibition

September 18 - 20, 2019

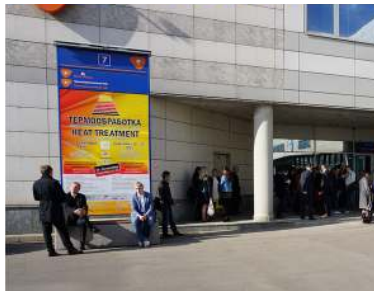
ufi Approved Event

Hall 1, Pavilion 7, Expocentre Fairgrounds. Moscow, Russia

International Exhibition "Heat Treatment" demonstrate products and technologies to leading Russian enterprises of metallurgical, metalworking, aerospace, engineering, defense industries, and other industrial enterprises.
Schmetz, BMI, IVA, Mahler, PVATePla, TAV vacuum furnaces, Mesa, SGL Carbon, ACME, Bosio, Remix, Eurotherm, Electrotherm, Seco Warwick, SAFE Cronite, Sandvik heating technologies, ALD vacuum Technologies are already our participants.

The main sections:

- Equipment for heat treatment and chemical heat treatment (furnaces, installations etc.)
- Induction equipment
- Vacuum equipment and components of vacuum systems
- Laboratory furnaces, drying cabinets; Laboratory equipment
- Installation of coating, including plasma spraying of protective coatings
- Laser technology equipment
- Equipment for research of properties of materials, nondestructive testing
- Refractories, insulation and lining of thermal units
- Articles of graphite, carbon felt and carbon-carbon composites for high temperature equipment
- Gas and oil burners, gas supply systems and automation. Pulse burner management system
- Steel castings, heat resistant. Furnace equipment and technological equipment for heat treatment.
- Lubricants and technical liquids. Technology cleaning and temperature control of industrial fluids.
- Cooling system



Brief of the exhibition for 2016:
97 exhibitors (14 of which participated for the first time)
12 countries: Russia, Belarus, Germany, Austria, Slovenia, Italy, France, Switzerland, Czech Republic, Poland, Israel, China. The total exhibition area - 3011 sq.m.
2 days of business program: 10-th Conference "Innovative Technologies in Heat Treatment" visitors
90% of participants plan to present their companies at the 11th Exhibition "Heat Treatment 2017"
